

# Halal Catalogue

We will be Net Zero by 2040 - This is our commitment to minimize the impacts of greenhouse gas emissions and make the world a better place to live.

## Sustainability and ESG

Environmental responsibility, social development and conscious consumption

The **BRF Sustainability Policy** guides our activities and stipulates **chain management guidelines** based on environmental, socioeconomic and governance criteria.

Our **Sustainability Plan** establishes ambitions, public commitments and the search for innovative solutions to the sustainability challenges of the business.

## Our BRANDS

Consumer-preferred with a comprehensive product portfolio

We have built strong brands that have become part of the history and memories of our consumers, and we continue to expand our portfolio and sales and distribution channels, to bring tasty and practical food **wherever consumers are and the way they want.**

## Productive CHAIN

From farm to table, safety, quality and integrity

Our **integrated production chain** makes it possible to assess, measure and certify the safety, integrity and sustainability of all processes - **from farm to table.** Thus, we honor our purpose of bringing safe and tasty **foods to the consumer that meet the highest quality standards.**

## Get to know BRF

A global food company with strong brands and people passionate about what they do

**Around 100,000 professionals around the world,** responsible for bringing safe, tasty and quality food to millions of people in **127 countries.**

We produce **4.6 million tons** of food per year and we have **9.5 thousand integrated producers.** The **passion for working with food** unites us to fulfill the **purpose of leading a better life for all people.**

# BRF = TRACEABILITY

100% traceability of grains from the Amazon and Cerrado by 2025

Based on BRF's fundamental commitments, we have internal and contractual guidelines for not purchasing grains originating from deforestation in the Amazon and Cerrado. In addition, with the help of technology and a **sophisticated georeferencing** system, we **track the origin of the grains** we buy to supply our chain.

**In 2021, we released the Sustainable Grain Purchase Policy.** Find out about other traceability initiatives.

# BRF = QUALITY

Quality: the premise that guides our work

We act with protagonism to ensure that **Quality** is present at all stages of the production chain. We delight our consumers, customers and partners with high standard products and **services and we seek continuous improvement of our processes.**

# BRF = INNOVATION

Knowledge and strategy drive our evolution

**Innovation is in BRF's DNA** and guides the entire production chain - from the selection of ingredients to the development of packaging. Our pioneering spirit in continuous improvement of food products, processes and services leverages the development of the entire industry and benefits, above all, the consumer.

# BRF = SOCIAL RESPONSIBILITY

BRF Institute - Feeding the transformation for 10 years

BRF Institute, a non-profit association founded in 2012, promotes socioeconomic inclusion through projects and actions in the areas of food and education, in addition to supporting other initiatives and organizations.

**More than one million people benefited over the first decade of operations.**
